MARVIN ELEVATE® COLLECTION

ELEVATE® SWINGING FRENCH DOOR

AS BEAUTIFUL AS IT IS DURABLE

ELEVATE® SWINGING FRENCH DOOR

Style Meets Strength.
With rich wood interiors and proprietary Ultrex® fiberglass exteriors, Elevate Swinging French doors are a unique combination of beauty and durability and are available in both inswing and outswing operation. Fitting openings up to 9 feet wide and 8 feet high, they have the features to match design preferences and create a seamless transition to the outdoors.

DURABLE MATERIALS

Ultrex fiberglass resists bending and flexing under any conditions and is 8x stronger than vinyl.

SUPERIOR FINISH

Proprietary acrylic finish meets AAMA 624 certification and resists chipping, denting, and peeling.

NATURAL WOOD INTERIOR

Bare pine interior can be stained to match interiors or factory finished.

CONFIGURATIONS

Optimize operation and visibility with 1-, 2-, and 3-panel configurations.

Elevate products are backed by a fully transferable, 20/10-year limited warranty on glass, materials, and workmanship.

NEW OUTSWING ENHANCEMENTS

2-panel (OO, OX/XO) and 3-panel (OXO) configurations added, with continuous frame design integrated as part of the 3-panel.

Updated frame design is consistent with Elevate inswing and sliding doors with increased rigidity and strength.

Improved performance sill with 6-degree slope and integrated weep and drainage system.

Redesigned astragal for performance and consistency across all sizes.

Achieve a 32” net clear opening and meet ADA compliance with X operation configuration as a special size.

Adjustable hinges to maintain alignment, improve closure, and ensure performance.

Concealed through-jamb installation with lengthened interior fasteners reduces frame twist and maintains clean aesthetics with no visible plugs or exposed fasteners.

Up to PG40 performance rating standard.
