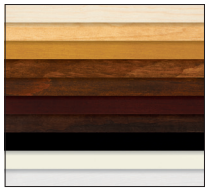
ULTIMATE DESIGN OPTIONS

MARVIN ULTIMATE DESIGN OPTIONS

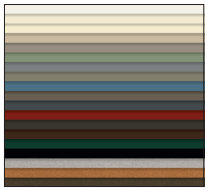
PERSONALIZE YOUR SPACE

Deciding on the product that's right for your project is just the beginning. With an extensive array of design options to choose from, you can customize your windows and doors to reflect the architecture, character, and personality of your space.



INTERIOR FINISH

Install your products the day they arrive with factory-applied interior finishes that eliminate the time, mess, and additional labor of painting and staining on-site.



EXTERIOR FINISH

Our palette of nineteen durable, low maintenance clad-wood color options includes earthy tones, bold, rich colors and three pearlescent finishes. Wood exterior, custom colors and color matching is also available.

DIVIDED LITES

With several different patterns and profile options, you can customize your windows and doors to match any design style.

CASINGS

Exterior casings for windows and doors in several profiles are available in wood or extruded aluminum in a spectrum of deep, rich, long-lasting colors.

HARDWARE

High quality hardware is an important part of your windows and doors. Options for design styles, metal types, finishes, and functionality take it to the next level.

SCREENS

Marvin Bright View mesh screens are a standard option for most Marvin products. Several additional screen and mesh options are also available.

WASH MODE

Revolutionary hardware system allows you to wash the outside of your windows from the inside with ease.

LIFT LOCK

Relocates the lock on an Ultimate Single Hung window from the check rail to the lower part of the sash for easy accessibility.

HOME AUTOMATION

Smart home technology meets peace of mind with the Lock Status Sensor. This fully integrated, factory-prepped solution is ready for wired or wireless connectivity.

SAFETY

Our Window Opening Control Devices assist in the prevention of window falls in children and meet the ASTM F2090-10 standard code.
